Applicant's election with traverse of the species of Fig('s). 17 is acknowledged. Because of required separate searches, the restriction is made final.

*Applicant is reminded that if the amendment of any claims results in a change of the species they read upon, that is required to be indicated. Failure to do so will be construed as an indication that the readability has not changed. In addition, if any new claims are added, it is required that the applicant indicate which of them read on the elected species. Failure to do so will result in a holding of nonresponsiveness.*

Claim(s) 23-29 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The examiner finds that they are unclear and confusing. For example, where is the "space-forming shoulder" inside the housing. How can the house be "hermetically sealed" when there is a shaft receiving hole? Where is the "communication passage way"?

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lenard A. Footland, whose telephone number is (571) 272-7103.
